## SOCIAL MEDIA TEAM

### JIM 2022 SOCIAL MEDIA TEAM

The JIM, Joint Interventional Meeting, is a more than 20 years experienced three-day congress presenting live procedures from the distinguished international centers.

The recent pandemic showed us, once more, the importance of sharing and discussing together problems and solutions in the interventional cardiovascular field, both virtually and in person.

There is no better way to do it than through live cases commented on by leading experts in an open discussion with congress participants.

Through the Social Media Team & the Ambassador initiatives, we would like to create new networks between colleagues & fellows from all over the world commenting together on the challenging live cases and contents of this 2022 hybrid summer edition.
